

## CLAIMS

1. A toy vehicle comprising sound-producing means arranged to replay recorded sounds and means for activating the sound-producing means depending on the motion of the vehicle.
2. A toy vehicle according to claim 1, wherein a first sound is emitted if the vehicle is moved forwards and a second sound is emitted if the vehicle is moved backwards.
3. A toy vehicle according to claim 2, wherein the sounds are arranged to be emitted for as long as the vehicle is in motion.
4. A toy vehicle according to claim 2 or 3, wherein a further sound is arranged to be replayed for a set period of time commencing when the vehicle starts moving.
5. A toy vehicle according to claim 2, 3 or 4, wherein the sound-producing means is arranged to emit one of a plurality of sets of recorded sounds, selectable by means of a further switch.
6. A toy vehicle according to any preceding claim, wherein the sound-producing means comprises means for digitally recording sounds from an external source.
7. A toy vehicle according to any preceding claim, having an on/off switch.
